46 DAYS PAST

319 TO COME

## Surgical Suggestions.

In the palm, foreign bodies, by reason of the direction of the thrust, often point towards the dorsum and, in a general way, towards the center of the wrist, and such movements as they undergo by muscular contractions carry them further in those directions.—*Amer. Journ. of Surg.*

Weather

Warmer

Temp.

Mr Lee and family was over and spent the evening. Evelin went to Sunday school with the girls and stayed with us for tea. Pa has spent another day in St. Thomas. Aletta was down a few minutes came with Barton. I am a little better. Mr Holman was over a little while too. Wa in the house all day never out once. Snowed a few little flakes. Good wheeling. I commenced last night to raise the pet lamb. Lydia & Billy 5
