

Thursday June 28<sup>th</sup>

I went down town first thing this morning with some milk for Auntie & ~~Charlie~~ Mrs. Lawson. And while I was there I took her window that the kids broke on Sunday up to Hall's and had him put a new pane in. I also got some Summer Snow plants from Ruby & took some to Auntie Alice, some to Ench & brought some home. Mrs. Douglas called up at noon to say that the hull would not be up today as they didn't move the car off the siding at the farm till this morning. I drove back down town right after dinner and took Uncle Ward down to get his hair cut and got my own cut too. Then I came home & took Muriel & the Wampus over to Earl Munn's then came home and had a sleep and after that planted out some cauliflower plants that Uncle Ward gave me. Went to bed to night the last of the season. Fine cool rain to night.

Friday June 29<sup>th</sup>

I had to go over and get Queen and drive down town this morning with some egg for Mrs. Zealand & Mrs. Williams. I had a flat tire this morning & my spare was down at this place. I got it in the

buggy and brought it home. I went back over home right after dinner and Dad, Charlie and I went down to get the hull. The train wasn't it and we had to wait till after four o'clock before they had the car placed over at the loading chute. We just hummed around and went over to see the Erie boat come in. The hull was all right and Dad & Charlie hid him home without any trouble. I got home about six o'clock some lawn after ten and went to bed early. Cool & drizzly.

Saturday June 30<sup>th</sup>

I drove Tom & his wife down town first thing this morning to catch the bus for Hamilton as Tom has to be in Toronto at one p.m. for another board. Spent most of the forenoon working in the garden. In the afternoon Muriel, the Wampus and I drove down town and were down most of the afternoon. I had a bath at Auntie's. I had to do chores over at Tom's to night. I spent most of the evening cleaning my barn as to tomorrow is Decoration Day. I got my new band uniform at Lips today. Mabel had to go over to the school this morning as Dr. Cook came out & inoculated the children for diphtheria or something. She went home from there but came back here to night.
