A. D. McMILLAN
FRUIT AND VEGETABLE GROWER

Burlington, Ont., 19

went to Colon Cemetery in the afternoon. seen three funerals of the rich class they get a grave for five years and if there friends dont pay again they are dug out and some one else buried there. The poorer people are buried two or three in one grave with out any box at all.

Monday Jan. 23rd. This is the warmest place we have struck yet. too hot for a hat so went and bought a Panama Hat. This is certainly a funny city. every thing different from the States. they have no Carpets on any of the floors they are all marble or tiles have no glass. the windows all have iron bars and at nights they shut big thick doors three and four inches thick and some of them have iron bolts ^{studied} all through them. They have the nicest parks of any place we have seen. There is a military band that plays evenings in the park
