

would if I got home in time. I went over home as soon as I could which wasn't very early and on my way I took Harry B & Gay over to the Hampton and Marj. went over later with the baby and stayed all afternoon. Dad & I went down to the box factory and got on a wagon loaded with ends and edgings. There is an enormous pile there that the boss told Dad. he could have for \$10.00 and it looks to be worth the money. We had dinner over then. Enah was down at her mother's who is in bad shape. We got out here with our load about three o'clock and after we put it off I harnessed Green and went over to Dave's. We got a fair load of hay on but didn't quite clear the field so I left Green there all night and told him I would be back in the morning. I then helped Marj bring the children home by putting Gay in the buggy with the baby. They took some pushing up the hill. Fine day and much milder but east wind.

Saturday October 24th

I went over to Dave's this morning and helped him get the load off, he had half of it off alone, and we got rest of it in and pitched off. We also went over to Com's and got a ladder that Com gave him. What he is going

to do with it I don't know because he can't climb. The only way he can elevate himself is to pull his up, as he can't seem to lift his one foot at all, and to me dangerous for him to try to get off the ground. Home about eleven and as we didn't have dinner, I got about four bushels of Spys picked, then one or five bushels more on the tree and some of nice ones. It was raining by that time and has hard ever since. I helped Marj wash the dishes, dinner and then got mad at her because she n at me so while I was trying to read so I went to the school-house and swept out. She said it good riddance and hasn't asked me to do thing since, consequently I had a peaceful after the dishes were washed. Much milder to:

Sunday October 25th

Our plans for going to the Smyth's were again by the weather as it has been a very disagreeable. It was raining and very dark early in the forenoon and then the wind got around to the west and blowing hard all day and getting a little colder. In the afternoon, the sun shone at intervals through the rifts of
