310 DAYS PAST

56 TO COME

Typhoid-Differential Diagnosis—No. 3.

Appendicitis is sometimes mistaken for typhoid fever. A careful physical examination, and, if need be, an operation will decide the question, for it is better to remove a normal appendix than to mistake a diseased appendix for typhoid fever. In appendicitis no time should be wasted by laborious blood examinations.—Rueck; *Med. Record.*

Weather

A fine day

Temp.

Lewis & Bell was down for dinner. Melba & Wilfred went to Sunday school. Mauchie had a boil on her lip & had to stay home. Clarence Leves got his hat a lot of little fellows by our east barn straw stack. Dr Pickering operated on Polly again. Miss S.
