

her through Vye's mangles and corn
into the barnyard. Paul Lee and Cass
went off to look for corn for a corn-roast
and I went over to Vye's. Then Dick
and I went off in search of the little ones.
We at last found them in Vye's hayfield
and chased them up. Then Vye and
I went back his lane to look for his
boar. We found the Panisters track there.
We found his boar in his wheat field
and headed him off and then came
home. I got home about dark. Thus
ended that boar hunt.

Huby could not come over to-day
as he had some insurance to look
after but he was represented by Tig,
who spent the day, and went home
with Bill to-night. He comes
over every day now.

Pretty fairly hot to-day
nice wind, may rain before long.
Sun set clear to-night & ere sleep it will

rains before Monday

Saturday July 22nd
We all got up pretty early this
morning. First of all we went out
and pitched all the load of wheat in
the barn. Then we went over to the
alsike field. We met Judge Wells
taking his morning ride and he grew
very excited when he saw Tig and
raised his whip and made a great fuss
but Tig did not pay any attention. I helped
pitch on a load and we put it off with
the fork. I mowed it away while they
were gone and then hoed in the garden.
Huby came over about eleven and they
got another load in the barn before
dinner. We were a long time getting
the car fixed on the tracks. Huby and
I did not go out to the fields at all
this after noon we just mowed
away it was very much easier
than the timothy, being light and short.
