Saturday July 1st 1911.
Since I finished the book that I
have been recording events in up to
June 27th we have got quite a few
things done. On Wednesday Bill cut
hay and I worked in the mangles.
Thursday Bill and Enah went down
town in the wagon. They got the
hay-rack and just about all that was
left of the furniture. Daddy raked
hay and I cocked up. When Bill
came home about five he went out and
finished mowing in the east corner field
which took him till seven. Yesterday
I churned for an hour and a half and
then thinking there was nothing coming I
left it and went and cocked hay the rest
of the day, but Enah got the butter to come.
We got all the hay cocked that was
ready. Roy came up last night and Dick
was at the station to meet him.
