183 DAYS PAST

Tuesday

183 TO COME

The Puerperal Patient,

if at all anemic, requires special attention during the period of gestation, in order that she may be thoroughly prepared for parturition and lactation. **Pepto-Mangan (Gude)** is so thoroughly palatable and agreeable, and so easily tolerable, that the most fastidious prospective mother takes it readily and with marked benefit.

Weather

Temp.

A warm day
I went berrying this
morning. I then went
up & helped Anna Mc
Taggart with her bees.
Mella & I went to Ashner
for medicine for the
Lilly cow John was
working on his wheat
ground & cutting
his les Albert was up
morning
