

noon but we didn't, we have to keep a rather close watch on one of the ewes. Frank went down to church and Sunday school this morning and Enah walked down to church alone to night. We didn't get through in time to go with her. Dick slept till dinner and after dinner went down town, he will likely go to church to night. Cloudy and rather cold with some snow and raw wind.

Monday March 9th

We didn't do anything much but chores to day and watch sheep. Dad. was just in bed at all last night and when he was out at four this morning to look at the sheep, found the wide-headed ewe with a lamb, which if it had been left much longer would have perished with the cold; but Dad. wrapped it up in his old pea jacket and brought it around alright. Mrs. M^r was here washing all day - and it has been very miserable and cold and windy. To night Enah and I went down to the Methodist Choir concert, and thought it was great especially the costumes which were all old fashioned. The hall was packed full, and they say some were turned away. It lasted till late, we got home about ^{half past eleven} twelve o'clock. Dick and Dad. were both up.

Tuesday March 10th

We did chores all morning. Mrs. Fleming was over for a little

while this afternoon, we hitched Clepsy and Belle up to the buck sleigh and drove them down to Jonas' corner and back a couple of times as that was the only place there was any snow. Tommy Jackson was over for quite awhile late this afternoon to see about getting some corn stalks, he was telling us a lot about sheep and a good many other things. Cold, raw wind, sunny

Wednesday March 11th

Dad. was up all night last night again and hardly slept at all. I stayed up awhile but got so sleepy and chilly that I could not stand it so went to bed. The white ewe, which is due to lamb tomorrow was in rather bad shape all night, and there was no sign of lambs so Dad. got us all up early this morning and we had breakfast over by a little after seven and then Dad. went out to examine her, and in about half an hour, we had two more bucks lambs but one was dead. She was very weak, so we just left her alone for awhile and brought the live lamb in the house to get warm. When we took it out, the ewe wouldn't own it so it has been in the house all day and Dad. takes it out every now and then for refreshments, she was so weak we didn't like to urge her. We were afraid this morning that she wouldn't pull through but she seems much stronger now, she eats and chews her cud so I guess will recover. We haven't done much to day but chores and sit
