169 DAYS PAST

197 TO COME

Dec. 15, 1906.

Dr. J. H. Alford, Ottawa, Canada, says:

"I tried your sample bottle of **Pepto-Mangan (Gude)** in a case of anemia following gastric ulcer, in which it was impossible to give anything but the mildest and least irritating iron preparation. The results have been excellent; the anemic and general condition greatly improved without any gastric irritation of any consequence.

As an iron preparation **Pepto-Mangan** is an excellent product and will stand the test."

Rained very hard this morning  
We worked getting out tomato  
plants didn't wash well  
I went to Aylmer & got  
a new silk dress for Helba  
& got the foundation for  
the bee hives. The bees put  
it in some of the hives!  
Ed & Boyde came up & got  
theirs
