303 DAYS PAST

TUESDAY

63 TO COME

Oct. 20, 1906.

Dr. S. American, San Francisco, Cal., says:

"Pepto-Mangan (Gude) is practically the only proprietary medicine that I use in my practice, as it has proved itself a good tonic in convalescence."

Feb. —, 1907.

Marcelino Mendoza, M.D., Hospital Militar, Puebla, Mexico, says:

"I know and use in my practice Pepto-Mangan (Gude)."

A horrid day rained this morning & some snow flurries all day. Was cold all day, but at night the ground is freezing hard. John helped me to wash. I had to hang the clothes on the veranda to dry. Dr. Pickering was out to Lewis's to see the hired man how that was sick. Mella has to go to school alone. Maudie is only better. We drove the chickens under the south barn for the first time tonight. Mella gave

Billy 4    Mariah 6-

for the chickens and a chicken
