235 TO COME

A Richer and Redder Blood.

The deficiency of hematin in Anemia and its congeners is apparent in the pallor of skin and mucous membranes. Improved systemic oxygenation is impossible without a sufficient modicum of organic iron in the vital fluid. Pepto-Mangan (Gude) furnishes both iron and manganese in shape for almost immediate utilization in the formation of a richer and a redder blood.

Weather

Temp.

Rained this morning & turned out very hot for a little while, then rained again & then turned very cold, so cold to night that when Mella & I went to Aymer, I had to wear John's fur coat. Girls went to school, Maudie stayed out to Lars Standings & is going to stay there all night. Mella & I went for medicine for the old Valentin. I washed. Leckel went to Lora down
