331 DAYS PAST

34 TO COME

The Shut-In Anemic.

The hard hum-drum city life of those whose days are spent indoors is bound to leave its traces upon the individual so situated. While **Pepto-Mangan (Gude)** cannot remedy the cause of the general devitalization, it aids in overcoming the anemia and assists materially in increasing the appetite, spirits, and general well-being. As it is non-irritant and non-astringent, it does not impair the digestion nor cause constipation.
