

alaw sure has the measles
we tried to keep the
conductor and every
body away, saying
we thought he had
a bad cold, as she
has a bad cough
but the conductor got
wise and looked at
him and knows he
has the measles.

but he seems to be a
good sort, and tells
us not to say
any thing to any
body or he would
have to report it and
we would have to get
off the train.

there are some more
children on the train
and we are having
some job trying to
keep them away from
the girls. one good
thing the car is not
very crowded, we
have to take turns
watching him, and
going to the diner
in relays, but nobody
is hungry, and alant
does not eat any
thing, got some soup
and milk from the
diner and he only eat
a couple of spoonfuls
and then to finish it
