

Monday ~~Sept~~ January 23rd

Lorn came over this morning before I had my breakfast. We loaded up all the cans but what I thought were the three best ones and took them down to Neil. He gave us 5^{cts} for the yearlings & 10^{cts} for the lamb, the total being \$43.²⁰. I walked home stopping for a few minutes at Aunties and for awhile at the farm. Dad. had to be a bearer at Dave Lowe's funeral this afternoon. We all went to town this afternoon. I got my hair cut and Mary got some medicine from Dr. Cook for her lame back. To night I went down to hand practice. Getting softer all day. Frank went to Guelph for a couple of weeks yesterday.

Tuesday January 24th

It snowed heavily for awhile this morning and gradually turned to a misty rain. To night it is pouring. I haven't done anything all day but sit around reading or writing. I walked over to Lorn's late this afternoon and saw the little pigs for the first time. Everything seems to be in good shape over there. Ina was here all day and I drove her home. The roads are hard but wet so if it freezes up I suppose the brakes will be tight again. Mary back & my barn still pretty bad.

Charlie & I then drove down town stopping on our way at the farm for awhile. Charlie got his hair cut which about all I did was forget to get some bread. I went to Auntie's for awhile and then over to Uncle Wards to get some horticultural tickets. Charlie came over there and called for me. To night I went over to Lorn Stone's party. There was an enormous crowd there and the floor was so full all the time that I didn't attempt to dance but stood around and conversed with other ring side spectators. Bill Donald had several items of news to purvey. among them that Charlie Robinson's stuff had all been seized by the bailiff. George Muth's barn had burned down. Jim Hudson was going to marry a Delgalish girl and Earl ~~Atte~~ had already married one of Clarence Fuchs' girls. Charlie Robinson & wife were at the dance as cheerful as ever; his troubles evidently setting light on him. Ina & Nina were rather perturbed over the fact that
