

October Tuesday 19 1926

Up and around early and off to Cairnsville to the plowing match. Got along fine even if my team went very good at the start. Won 1st and best finish when I defeated third prize amateurs at provincial. Roscoe won 2nd and prize for best plow team. Carl won 3rd and John Deans got first and best finish. Home at seven and attended practices after supper. Had a chat with Jean during practice, over the phone.

Wednesday 20

A busy day on milk route answering all the ladies' questions. Rather disagreeable afternoon as it snowed. The play "Robert and Mary" went off O.K. and we had a fair crowd even if the weather wasn't very nice. Lunch afterward and home at 11.20.

Thursday 21

Up early and off to Blenheim plowing match at Wolverton. Won first in amateurs class and best crown. Roscoe won 2nd and best finish and beat Greggsbank. Carl won 4th and Johnnie Deans 3rd in 19 and 4th in class. Had supper up home and took Dad's car to Edgars garage. Called up Jean and told her the results.

October Friday 22 1926

A wet rainy morning but we started for N. Dumfries plowing match about eight thinking it would clear up. Stopped at Walls and found out match was postponed until next week. Went to Agg with Jack and got two prizes of day luffae, then came home and went to work. Raines were here at night but I retired at 9.30.

Saturday 23

Back to my old job again, peddling milk and was through in good time so got a hair cut before I came home. Busy day cleaning up in the dairy. The rest of the gang went to town at night but I stayed home, had a chat with Jean on the phone and went to roost early.

Sunday 24

It rained all morning so that it was rather disagreeable for me peddling milk. Home at 12.45; had dinner then drove up home and went after Jean then got Dad, Maud and the girls and went up to Uncle Aito to celebrate Jean's birthday which is to-morrow. Presented Jean with her engagement ring and she was deli-hted with it.
