**Does Not Irritate the Gastric Mucosa.**

An English practitioner writes: "In my hands **Pepto-Mangan (Gude)** has fulfilled all your claims for it. The fact that it does not constipate nor irritate the gastric mucosa, irritable at times in extreme cases of simple primary anemia, makes it a remedy of value in that disease. It is easily assimilated and can be given to suit young children without causing secondary gastro-intestinal derangement."

**Weather**

**Temp.**

Pa took the milk & went  
out to Eugene with Polly  
then to the cedars for timber  
for Eugene's barn. Mauda  
& Nellie road their wheels to  
school. To night Eugene  
went to his place. Pa to  
town & I ironed. Nellie is  
sick & we have had Luddy  
working her. Polly worked  
all the afternoon and drove  
Polly & Mydia 11.
