

went to church with Aunty to night then spent the evening with May.

Monday February 2nd

The old bear could have seen his shadow all day to day if he came out of his log, he would also have got his feet wet as it has been a beautiful sunny, warm spring-like day and throwing in the shade. I took a walk over to John Weis' this morning. Cam was there and told me that he was coming back here to live as his father couldn't bear the thought of going to live in the city nor of selling the furniture and house hold effects that Mrs. M. Bride had bought when the first started. This afternoon I went down to the mill and got some ralls out and Dad.

1. I went down to Preston's orchard for a while. They found old Henry Misener in there cutting trees so Arthur has evidently thought we weren't going to get all the trees cut but he didn't say anything about it. Each took Mexico & the cutter and drove Mrs. They up to Miss M. Cap's this afternoon. Dad took the park out after the people to day. This evening I went down as I thought the Inx's boys were going to meet but they didn't & there was some arrangement about them going to Simcoe to play hockey.

Tuesday February 3rd

Dad. and I went down to Preston's this morning and got another tree down and partly brushed up. This afternoon Dad. went down and finished trimming the trees and I drove down town in the city and got the chimney for my brooder that Hugh McQueen has

been making for me. I did up the Chores after I got home. I worked at my show card work to night. Cloudy and colder

Wednesday February 4th

Dad. and I went down to the orchard again this morning and have been down there most of the day so got quite a lot done. Supper was in at noon to ask me to be clerk at his sale which is due to come off on the 17th. Dad. commissioned him to get him a plug of tobacco which he was to leave in the mail box on Feb. 11th he never came back and caused Dad. several fruitless trips to the mail box. I went down town to night. It has not been frosty to day but a raw east wind.

Thursday February 5th

Dad. and I went over to the orchard this morning and got a big tree next to the hedge down. Old Henry Misener was there and he and I took ear saws over to his place and he sharpened it up a little. He got word from some where that the Douce twins beat the Vet's last night 11-2. We didn't go back this afternoon but Dad. helped me with my brooder house and put on the chimney. Billy Mills was over to night and said this wasn't going to let me have my baby chicks now as he was getting orders for them. Supper was in too and brought Dad's tobacco. Snowed a little.

Friday February 6th

This has been a beautiful day. Sunny & mild. Dad. & I!
