318 DAYS PAST

48 TO COME

**Abnormal Perspiration.**

If the sweat is profuse and offensive, a valuable powder to use is a combination of bismuth subnitrate 4 parts, salicylic acid  $2\frac{1}{2}$  parts, and zinc oleate  $2\frac{1}{2}$  parts. For sweating and ill-smelling feet bathe in a strong solution of alum water, after which sponge with alcohol. Dust the shoes and stockings with a powder composed of boric and salicylic acids.—*Exch.*

**Weather**

**Temp.**

Snow Froze hard spit  
last night for the first—  
Couldn't plough to day  
we mired. John has  
gone down to sheets,  
I was over to Mr Cobbs  
and he has an  
abscess coming March 5

Friday 14 cold & frozen  
hard, thawed a little in the  
sun. Gaudin & School. Eugene &  
Delbert was here a few minutes  
on their way to Aymer. Albert was  
up. Mariah 5-
