

**Sunday, April 19**

109 DAYS PAST

256 TO COME

**A Strong Endorsement.**

In the "Critic and Guide" for March, 1912, the editor, Dr. Wm. J. Robinson, in considering the standing of various preparations, says of **Pepto-Mangan (Gude)**: "This perfectly ethical, palatable, stable and therapeutically efficient preparation ..... is everything a ferruginous preparation can be. We have used it and are using it in our own family very frequently, and prescribe it in syphilitic anemia and in other conditions of exhaustion and blood impoverishment, with most excellent results. And that's all we ask of a preparation."

**Weather**

**Temp.**

*Rained in the morning  
We was home all day &  
C Eugene went away in  
the evening. Mrs Hol &  
Evelin was over in the  
evening.*
