73 DAYS PAST

Thursday

293 TO COME

A Deficiency of Blood Iron

in Anemia and its congeners is apparent in the pallor of skin and mucous membranes. Improved systemic oxygenation is impossible without a sufficient modicum of organic iron in the vital fluid. **Pepto-Mangan (Gude)** furnishes both iron and manganese in shape for almost immediate utilization in the formation of a richer and a redder blood.

Weather

Temp.

cloudy & a high
wind all day. Cold, east
windy. We washed. Maudie
went to school John was out
to the reform convention,
Alta & Mr Dauce brought
baby & left Jim, while her
& her Father went to Auburn
Mr Loves abscess broke this
morning. Shed & George & Davis
sat up with him all night
Mr Lanician was here a
little while & day.
