85 DAYS PAST

280 TO COME

A Signal for Ferruginous Therapy

is a noticeable pallor of skin and mucuous membranes, coupled with the subjective symptoms of anemia-lassitude, headaches, shortness of breath, cardiac palpitation, etc. **Pepto-Mangan (Gude)** is basically and fundamentally restorative, as it operates primarily upon the blood itself, the fountain and foundation of life and living.

Maudie took Mella to school
Then in the afternoon, Maudie
& I took Maude Thompson
to Aymer & got Maudie & Mella
a pair of shoes each, paid for
them. Then went to Mrs. Collins
to a tea party where had seventeen
there & Maudie & Mella, waited,
on them, we all had a fine
time. Leave home by eight
Eugene was ^{was} here & brought
me a lot of syrup
