

Friday September 29<sup>th</sup>

It was too wet for Dad's furrows out his field this morning so he did a few chores and I went down town with the wagon and got some shingles also the money for my steers from Bagley and Milly. I was down till noon and had to do a bit of chasing around after the shingles. They had none at the Wide spread and Hawey was working way off on St. George St. on Haymaker's new house and I had to go up there and get him. I got eight bunches for \$7.50 I want to shingle the old part of the chicken house. This afternoon Dad went back and furrowed out the field and finished it and I cleaned out the ditches in my plots. Art. Quamby borrowed our hay rack this morning to haul a load of furniture from Amicos for Jack Martin's new man Cowley. He brought it back to night. Frank brought over ten bushels of potatoes from Billy Loring's who has just brought a car load in at \$1.25 a bushel. To night I drove Enoch down to choir practice. We took Miss Mother's down to the top of the hill but there she discovered she had lost her hand bag so went back after it. I got my hair cut and then went over to the Sing Stars where I found Dick and Joe with Bud & Johnny. I sat there till half past ten and had a bit of fun, got Enoch at Auntie's. Very cold and windy.  
 full day.
