101 DAYS PAST ~~WEDNESDAY~~ 265 TO COME

Iron is Essential

to the maintenance of all vital processes, as it is the vital oxygen-carrying element of the blood. In anemic states **Pepto-Mangan (Gude)** furnishes iron (and manganese, its oxygenating partner) in a form peculiarly acceptable to the digestion, promptly absorbable and readily appropriate by the blood.

Weather Froze hard again **Temp.**
last with a strong north
east wind blowing all day
to day & yesterday. I finished
Melba's dress. Bert & Leary was
out for some sitting hens.
Had a letter from Florence
John decided this afternoon
for the first he has done.
I am not very well. Eugene
was here a few minutes today
on his way to Kingsmill to
get my dia shoe. Mr. Cox said
a few days ago that he had
me little pigs Variable 5-
