338 DAYS PAST

Tuesday

28 TO COME

May 21, 1907.

C. F. Prairie, M.D., Brasher Falls, N. Y., says:

"I used the sample of **Pepto-Mangan** which you sent me in a case of chlorosis in a young lady of twenty. I had used several preparations of iron, but the improvement was not marked. However, since taking the **Pepto-Mangan** there is a decided improvement in her blood condition, and I expect to give your preparation a trial in other cases."

Tried to sprinkle a little.
J & Melba ironed. Melba came
over to Evelius, this afternoon
Mrs Dancy was up their for
Coxes, Eugene was here
& they cut the yearlings
horns off. John & Albert drew
in even & talks this morning
Albert was here for dinner
Mr Coy was over to night
Maudie went to school.
