226 TO COME

139 DAYS PAST

A Fortified Hematinic and Tonic.

Not infrequently arsenic is needed in combination with a palatable, assimilable, organic preparation of iron, such as **Pepto-Mangan** as in profound anemias from various causes, in malarial anemia, and in chorea, as follows:

℞ Liq. Potas. Arsenitis. (Cc. 4.0-8.0) 5i-5ij
Pepto-Mangan (Gude). (Cc. 330—original bottle) ʒi
M. Sig.—Tablespoonful after each meal. Children in proportion.

Weather

Very warm

Temp.

The girls wheeled to school,
planted my cucumber seeds
Eugene planted the sweet
corn. Eugene & Harry took
the fine calves & black cow
out to Eugene's. Pa took lumber
from town & was out to the
place all day. The boys finished
drawing manure on the corn
ground. Have that & blough yes,
Billy worked all day. Then Pa came
Polly & Dell & 5 to Mr. Dancer for
dinner then back to the school

then back to the school
