251 DAYS PAST

114 TO COME

To Repair Broken-down Red Cells

is the urgent indication after the destruction of the parasites, in malarial infection. **Pepto-Mangan (Gude)** initiates and accomplishes hematic reconstruction, as it acts as a creator of new red cells and a re-creator of those partially destroyed. It also stimulates the formation of hemoglobin and acts as a general tonic reconstituent.

Weather *My Mother's Birthday* Temp.

Very warm I took the girls
& I went for them. Aletad
Eugene was over this evening
a little while, Joe was
digging the wheat ground
& John was cutting weeds
The boy & Evelyn was over
& Cecil came a little
while. Mark went to his
brother William's funeral.
Cecil & John went to the station
with him. *Mariah 14*
