308 DAYS PAST

57 TO COME

Post-Anesthesia Acidosis.

After all general anesthetics, it is a good procedure to let the patient drink repeatedly, at intervals, a glass of water containing a dram of sodium bicarbonate. If this is vomited, it serves as a good gastric lavage; if retained, it tends to forestall acid intoxication.—S. T. Pape; J. A. M. A.

Weather

A fine day

Temp.

but rather chilly. Eugene & Aleta was here on their way back from Cybmer & stayed for dinner, Aleta took her peaches home. Girls went to school. John & Ma Baker went to Mr Jan Blacks sale. Doelington thrashed this afternoon now they are at Bert Thompsons Baker & John stayed on this night. Billy & I with Louise & Annette
