

May 31st. Planting Tomatoes  
all day, very warm  
June 1st Had a good shower  
last night also some  
more this morning.  
Planting Tomatoes yet.  
very windy after dinner  
hand on plants, going  
out.

June 2nd Finished Tomato  
planting at noon. very  
cold + wind blowing  
a gale from the west,  
smashing the plants  
up in great style

June 3rd Very cold with  
high winds from the west,  
+ north west. stopped  
planting. Hoeing +  
cultivating, also  
hand cultivating carrots

June 4th. White frost this  
morning not any damage  
but curled leaves on the  
beans. Started planting  
out peppers.

June 5th. slight frost  
again. Planted out cukes  
and some more peppers.  
weather warm in the sun  
but very cold again tonight

June 6th - Sunday. Some  
frost again this morning  
but at noon looks like  
rain. John improving  
walking around some  
now.

June 7th. Had a shower last  
night. Planting pepper  
today. fine + warm.

June 8th. Fine + warm  
finished peppers.
