236 DAYS PAST

130 TO COME

Arthritis Deformans.

Gradual but permanent improvement noted in a number of cases after administration of thymus extract. Pain and swelling disappear and appetite returns. Nucleoproteid extract much preferable to crude gland. Treatment should cover several months, and small doses be continued for some time after apparent cure.—Berkeley.

Weather ~~Weather~~ was fine. Temp.

Sprinkled + ironed all the clothes. Eugene was here in afternoon to give Polly an injection. Rodewheel out town at night (Wanda did). Stayed to Auntie Clark's all night. Put wheel in Dr. M^c Fay's barn. When I got to town Enock Grills's store was on fire. Told Mrs. Campbell that I couldn't take my lesson next day so small found took in my hour.
