149 DAYS PAST

A fine Wednesday TO COME

In Full Dosage.

To overcome and combat degenerative factors, regenerative measures must be adopted and persisted in. In addition to the general nutritive and hygienic care of the patient, **Pepto-Mangan (Gude)** should be given, in full dosage, regularly and persistently, to restore, rebuild and revivify the red blood cells, to increase the percentage of hemoglobin and to reinforce vitality generally.

Weather

A fine day Temp.

Finished bedding at last, sowed the little field down by the woods last. Mr Young was here all day, John was sick until about three, he went down & sowed the field. Melba finished painting the ceiling, & then we have been tearing the paper & plaster off the kitchen March 6
