

sauer night. County went down town this after noon to get some things. Some thing has gone wrong with the dining room above chimney and we can hardly see and took them down to be shod but we found every shok across the room in there had smoke. Nice day, much in town full so after getting a buggy load of groceries came milder, slight wind and raining to night.

Monday February 17<sup>th</sup>

Dad. and I hooked Joe's spines to the buggy this morning home, I dropped a dollar's worth of sugar on the floor at Dayley's Millers and spilled it all over, I was mad enough to cuss. We found out that to morrow would be the last day they would cut

Sunday February 16<sup>th</sup>

I intended to go to church this morning with County, Dick ice, so as we couldnt get the team shod. Dad. spoke to Frank but I had to go up on the roof to see what was - Allan Law and he said he would haul it for us. We in matter with the dining room chimney and as I had to tended to get the ice house all ready this after noon but didn't wait till the fire went out it was twenty minutes to eleven when got much done to it. Alfred came over for a visit I got down, I found the cause of the trouble was that a Felix Perkins - came in to sell a wind mill. I was quick had blown down the chimney and nearly filled going to print pictures to night but we were a little late up the flue, I hadn't much trouble in dislodging it with ten and as I wanted to do quite a bit, I thought Frank came over with the boys to dinner, and this had better wait till I had more time. Dick didn't come afternoon we went skating. I thought I ought to go home to tea to night. We don't know where he is but suppose so I didn't get to church this morning. We were thinking he has gone to R. Y.P.O. There was quite a snow storm to night ones on the creek and the skating was good. However this morning but cleared off and was very sunny & mild out to the end of the pier and up as far as I can my this after noon. Clear & freezing to night.

Jackson's, Frank & I came home at half past five & Frank

Dick came over late. Nice day, rather cold and Tues day February 18<sup>th</sup>

cloudy. It turned cold and froze during the night Allan Law came with the first load of ice this morning soon after breakfast before we had our chores
