*Wednesday*

98 TO COME

**Syphilo-Dermo-Urologic Aphorisms.**

When infants, under one year old, exhibit hematuria without a traumatic or a similar cause, the symptom is a pretty fair indication of scorbutus. It is such a good indication that it may be the only one of the general condition that is present and all possible diligence should be used to confirm it and treat it in a manner that is both proper and efficient.—  
*Amer. Journ. of Derm.*

**Weather**

*A fine day*

**Temp.**

*We washed & it was so large we couldn't hardly find enough room to hang them. Girls went to school. John helped Clarence Skinner to wash his four cows & this afternoon he cut corn*
