136 DAYS PAST

229 TO COME

The Eye in Diagnosis—(Continued).

Whooping cough causes sub-conjunctival hemorrhage.

Diabetes is the etiologic factor in many cataract cases.

There are numerous other instances of systematic diseases which may find lodgement in the delicate structures of the eye, but I think I have mentioned enough to at least convince anyone of the importance of an eye examination.—*Russell; Diet & Hyg. Gazette.*

(Concluded second page following.)

Weather *Fine but cold* Temp.

This morning, with frost last night. Eugene & Harry drove manure all day. John was ill all day, with a cold.

Maudie & I went to Aylmer & got Maudie & Mella, a new spring coat. Mella was plaid trimmed with green. Maudie was yellow fawn & green & nearly all colours. Eugene went to Aylmer in the evening. Maudie & Mella was at Olives in the afternoon for tea Billy to Lydia $\frac{1}{2}$
