

WEDNESDAY, NOVEMBER 2, 1870.

I have had  
Charley making up  
ditch back of the  
barn to day with the  
horses & scraper.  
I have been doing  
a thousand and one  
little jobs to day myself  
and have been all  
over the neighbourhood  
to do them, or nearly so.  
To night we have  
had some of our  
neighbours in to spend  
the evening with us.  
John Matthews & Capt.  
enjoyed their visit  
much.

The weather is at  
present very beau-  
tiful more like  
sometimes than  
the last fall  
month.

THURSDAY, NOVEMBER 3, 1870.

Charley has been  
ploughing to day as  
usual & I finished  
digging the potatoes  
to day, besides doing  
some other jobs. To  
night I went down  
to finish my school  
business. Got along  
all right.

The weather is still  
very beautiful. Met  
with our old  
class leader Captain  
McCall to night. He  
is home for a couple  
of weeks, I hope  
for good, his pres-  
ence being so much  
needed at our ser-  
vices.

I am trying to  
save the Lord with  
gladness still.
