88 TO COME

March 31, 1907.

Dr. F. P. Dorschug, Cincinnati, Ohio, says:

"Your preparation of Iron, Pepto-Mangan, was duly received, and it came at a time when I could try it and watch its effects better than usual, as a member of my family was suffering from a neurosis from lack of red blood corpuscles, and the improvement following the use of that bottle only strengthened the opinion that I had from its previous use—that it is a most excellent preparation when an iron tonic is needed and can be given without any of the disadvantages of the old Tr. Ferri. Chl."
