109 DAYS PAST THURSDAY 257 TO COME

Do Not Irritate

the sensitive gastric mucosa by the regular administration of the metallic salts of iron. The ferruginous content of Pepto-Mangan (Gude) is in the form of an organic peptonate, its most tolerable and acceptable form. It may be given regularly as long as hematinic and tonic medication is necessary, without irritating the stomach or producing constipation.

Weather a dull day Temp.

to night it is snowing, the ground is white. Maucie went to school. Melba stayed all night at Mrs. Clines when they came back from Tiltonburg. Maucies big dog had two hams last night & the day she chewed one of their tails off. John ploughed today
