

WEDNESDAY, MARCH 23, 1870.

We have all of us been getting up wood in sled lengths to day. I find that this is about the handiest way after all. The displeas-ure with a great deal of han-dling as well as run-ning back and forth from the woods.

How narrow is the way we are called to walk in if we would enjoy constant com-munion with God! Yet it is surely consistent with every lawful sit-uation and occupation in life. I feel His presence as much when at my work as when any where else. Bless God!

THURSDAY, MARCH 24, 1870.

Worked again this forenoon at getting up wood in sled lengths. The boys have been at the same work this afternoon.

I went out to Do-see this afternoon on business. Saw Bro. Germean and had from him news of a glorious revival at present going on at Woodhouse. He says that the altar is crowded with pen-itents, many of them heads of families. I have great reason to thank God for a manifestation of His favour which I have had, this day to overtake me.
