

Monday October 27th

It had been stormy all day and we haven't attempted to do any thing but chores except that Dad and Frank went out and fixed the fence along the side-road where the cattle broke through yesterday and got on Dick's field. Young Horn from Marburg was in this morning and bought a ram lamb for \$22.⁰⁰. He got him cheap but he drives a tight bargain and we needed the money. The lamb's hind legs were a little crooked. Frank and I went down town to night and I went to band practice but there were no cornets there so we didn't have any. I spent most of the evening down at Auntie's. They tried to back me to play bridge.

Tuesday October 28th

It cleared off to-day and has been very windy & colder. Dad plowed all day but said it was very stiff. Frank has some odd jobs. I started to go down town this morning but had such a pain I lay down and slept it off. I went down this afternoon and got a pair of rubber from the man who bought Andrew's. To-night Frank and I went down to a committee meeting of the J. F. D. A. in our Sunday school. Jeff & Manning were there and we had a fair meeting and arranged for a debate in two weeks.

Wednesday October 29th

I went down this morning to help Uncle Ward pick apples (he asked me yesterday) and have been down there all day. I picked a fine lot of Speys all off one tree. I thought of going to Simcoe this afternoon to a poultry dressing demonstration but it was such a nice day I hated to quit picking so I didn't go. Frank went over to Supper and picked a couple of bushels for ourselves. Supper sold them to us for 125¢ a bushel. Dad has been plowing all day. Geith & Molly were over this afternoon after mushrooms. Ernie went down this morning and took Vernon & the kids to the station as they went back to-day. Auntie Alice went to Brautford with them. I went down town to night. Dad & Frank spent the evening studying Dad's income tax report.

Thursday October 30th

It has been another rainy day and we have done very little. Dad has spent the entire day and evening figuring and filling out his income tax forms. Frank helped. They are very complicated. Frank went to the mill this afternoon. I just read and chaced around all day. Very nice.
