

Sunday July 9th

Just as Dad was getting ready for church this morning Alan Law came after him and he had to go down there to administer unto a sick calf which died later in the day. I drove Enah and the baby down to church and as the baby didn't want to sit alone in church without some of the family I had to sit with him in the front seat and hold him on my knee most of the time but he was very good. Enah stayed down to dinner at Aunt's and Dad came down after he got home from the Law's. Frank and I had dinner alone. About three o'clock I went down to Aunt's and left Frank asleep on the sofa. Muby was there and Dad, Walter, Roy and I walked up to his place via the Dominion Hotel and Dave Wabblers in search of Dave but didn't find him, after inspecting Muby's garden and Bill Slocomb's buggy which Dad thinks has been run considerably. We took a walk down to the Customs House stopping in to see Mr. Smith for a few minutes on our way down. While we were down there Dave Wabblers came along with Geo. Tansboro and Jack Davis. We went back to the house all of us but Muby and I stayed

there to tea. Dad went home to do chores, Enah went up to her mother's to tea but left Sid down at Aunt's and she and Rebecca had a great time chewing the cat. Jean Maska was there to tea and all of us but Aunt, Aunt Ida and the two kids went to church. Enah has played today as though jammed her finger in the safe door. Roy donned a surplice and sang in the choir at both services today. After church I walked home with Jean and was over there for a little while and then came back down to Aunt's to say good bye to Roy who goes back in the morning. Dad was there with Joe and I drove home with them soon after. It has been fine with a nice breeze today.

Monday July 10th

Frank raked the rest of the corner field this morning and Dad & I have been cooking up all day but didn't finish it. After dinner while Frank was down after the mail Dad and I finished grinding the mower knife which Dad & Frank started on Saturday so we were late getting out. Frank started cutting the barley & oat stubble along the side roads. Walter & Aunt were over to night after tea. Joe & hat. Walter is to go back to Regina tomorrow night.
