125 DAYS PAST

240 TO COME

After the Chills and Fever Have Subsided

and the acute symptoms of malarial infection have disappeared, the object of treatment should be to restore to the blood its normal functional activity. **Pepto-Mangan (Gude)** supplies organically combined iron and manganese, the twin hematinics, in such promptly absorbable and assimilable form that the blood cells and hemoglobin are rapidly renewed and reconstructed.

Weather

Temp.

Warning The girls drove
Billy this morning, John was out
to the mill to repair & caught
left it to Ed Thompson & intent
to taking it out Eugene in
the morning. I cut Nella a
plaid dress & nearly made
it to day
