

Sunday May 13th

Frank and I didn't get ready in time to get to Sunday school this morning but we went down to church. Frank had to see Ben Juey and as he was working over here we went around this way. Aunty came over with us for dinner. This afternoon Dad, Dick and the baby went down to the gully. Frank went down to the Ryerse's and Cook, Aunty and I started down to look through the Dickey Stevens orchard but we met Jim Waddle on the way out to the farm so Cook went back with him but Aunty and I went on and went all over the place. Jim Waddle and the girl were still here when we got back and when Aunty and I left for town. I went down with Aunty for tea and went to church with Aunty and Aunty Alice. Much warmer but breezy.

Monday May 14th

I was just getting ready to go to Sam's after the sprays this morning when he and his man brought it down. He said his trees were out too far now for the second spray so as he was coming down town anyway he brought it down to us. We got the orchard and all the plum & cherry trees sprayed by about five o'clock. This afternoon we used nearly two tanks of spray but didn't put the second on nearly as thick as the first. To-night my two year old boys
