

Villa Nova with Supper to help him move his cattle. Tom Butler and his partner were in this afternoon with the sleigh and said Supper and Frank didn't get started till two o'clock so it would be late when they got out there. Frank didn't come back to night. They say the horses down along Shand's flat was up to the horses' bellies on the road so they will have had a nice trip. Dad and I cleaned out Moore skinner's box stall. I went down town to night. Morning came down and we had a meeting with some of the boys from both squares to arrange about athletic activities for the summer. I spent the rest of the evening with Marj and waiting to call for Aunt Alice at Cal. Smith's at eleven o'clock.

Saturday March 13th

It has been very windy and cold all day to-day and Dad and I haven't done any thing but chores and sit around the house. Euch felt very miserable this afternoon and had an ear ache. About six o'clock she and Sid got quite a scare as the chimney or at least the soot in the stone pipe in the kitchen caught fire and filled the room with smoke. They called Dad & me in from the barns but we couldn't find any trace of fire up in the garret or near the chimney so nothing serious happened. I didn't go down to work to night as it was a rather cold night. Euch had hoped to take some things down to Cousin Loll's shower which they had for her but she couldn't go. Frank got home about eleven. He came down from Waterford on the car. He had a bad trip.

Sunday March 14th

Frank and I went down to Sunday school and church this morning and Aunt Alice came over here with Frank to dinner but I stayed down at Aunt's for both dinner and tea. Jim came down at noon and he and I went down to the creek for a little while after dinner to look at musk rat holes and then we went up town to see Joe Thompson's and I spent the afternoon with Marj who had suffering from tooth ache. I went around before tea to see after poor old Tom O'Leary. Healy found him yesterday on the door step of the cobbler shop and he couldn't move or speak and is still only semi-conscious. Healy & some one else got him up to Alex Simpson's. They say there will not be much change till a day or two. Aunt and I went to church to night. Mr. B. gave preached. Cold wind but feels like spring.

Monday March 13th

Frank and I went down to Preston's this morning and cut the dead wood out of about six or seven trees as it was part of our contract to cut the dead wood out of the trees next to the one we cut down. Dad, Euch & Sid went down town this morning and were down to dinner and all the afternoon and went to see Cousin Loll. Frank and I just did chores this afternoon. Very mild and showery to night.

Tuesday March 16th

Dad noticed yesterday that *Onocoma* was not eating
