72 DAYS PAST

294 TO COME

Dr. L. Fuerst—Continued.

In the course of a period of more than ten years, I, as well as a large number of my colleagues, have often employed **Pepto-Mangan (Gude)** with success, since iron and manganese occur physiologically parallel in the blood, and in disease disappear in a like ratio As a matter of fact, the number of indications for the employment of **Pepto-**
Concluded on next page.

A raw east wind, but it
thawed a little. John drew
manure this forenoon, & this
afternoon, the Pitman boys
came & sawed wood.
Albert came up & put an
end to poor old Fleet. They
were all here for dinner &
dinner. I did my work all
alone. Eugene was to Cypher
this morning but didn't
come here. Bert, Dan Patten, is very ill
March 5.
