

October Sunday 31 1926

A nice bright but cool fall day. Jimmie helped me wash the bottles after dinner then I drove "Dollie" up to Parkers. Watched Jean milk, helped wipe the dishes after supper, and then we had another enjoyable drive around the block and Jean told me a secret.

November Monday 1

Started November off by putting in a real busy day at my usual work. Worked at my books after supper at night so didn't get to bed until two o'clock.

Tuesday 2

Finished work on my statements in afternoon. At night Rose, Alex, and I went down to Paynes to listen to the radio. Had a feed of grapes and chocolates and got warmed up in good shape by this new stove.

November Wednesday 3 1926

Had a real nice time when I spent the first week night in ages at Jeans and took Rose with me. Freshies were there but we made some candy in the kitchen and I had a few nice dances with Jean. Came home in forty five minutes as we drove "King" and Rose was at the wheel while I slept.

Thursday 4

A lovely fall day. Alex went up around Tillamook after a new Guernsey heifer and some sheep in the truck and didn't get back until about six o'clock. Lloyd Rose helped me wash up in the afternoon so I got through in good time and helped milk four cows at night. Gave "Dollie" a real cleaning at night.

Friday 5

Lloyd helped me peddle milk so I was home in time to eat a bachelor's dinner with Rose, Tom, and Alex and the rest of the bunch were away for dinner. Happier than ever after being engaged to my Bonnie Jean for two whole months.
