WED. APRIL 13, 1898

Wea.

Again I rose early and after breakfast I went down to Mundells again today. I was down about 7 o'clock we got along very well with our sewing but did not get quite through. I got a ride home with W. Linn-ber as he was putting in the seed at W. Graydon.

Ther.

THURSDAY 14

Wea.

After we had breakfast we took the roots out of the cellar and after dinner I dug the parsnips, and then I put in some garden we planted some Parsnips and Lettuce and Beets and Radishes and a few onion we had a busy day
