

Each to go for a motor ride this afternoon as  
 Brant Bloodworth had his father's car down here  
 so we did and had a nice afternoon but we  
 got rather tired. I didn't think they were going far  
 but we went to Brantford and a long way out on  
 the Hamilton road from Brantford and didn't get  
 home till nine o'clock. We had a nice time but a  
 little too much of it. Frank and Vito rode their wheel  
 down to the Wards this afternoon and Frank didn't  
 get home till nine o'clock either. Aunty and Aunty  
 Alice were over to dinner and Hubby was over  
 here to tea. The Pickford's and Gilbert Lyndes  
 were also over this afternoon. Lovely sunny day.

Monday April 10<sup>th</sup>

Dad and Frank have walked both teams on  
 the back field to day and got it about half  
 drilled in by to night. I went over to Jack's place  
 couple of hours this morning and this afternoon  
 did the chores over here at noon so was late getting to  
 Jack's and then spent about half an hour helping to dig  
 a big car out of the mud hole at the corner. The new time  
 makes things later in the morning but its nice at night.

Clementine Tupper had a red bull calf this morning  
 and the white ewe had a pair of twins which don't  
 seem very strong that brings the lamb crop up to  
 twenty seven. Eleven ewes & thirteen ram lambs.

Tuesday April 16<sup>th</sup>

Dad finished drilling in the back field this morning  
 and sowed a little piece near the woods broadcast  
 as it was the other side of the ditch which he didn't  
 want to cross. This afternoon he harrowed it over  
 and Frank worked all the afternoon on  
 the piece back of the orchards. I put in a little  
 over four hours over at Jack's and spent the  
 rest of the time over at J. doing chores. Very cloudy & mild.

Wednesday April 17<sup>th</sup>

Dad and Frank furrowed out the oat field this  
 morning and went down to the mill and got three bushels  
 of barley to mix with oats and sow on the three acres of  
 wheat along the side road as they are sure it is killed  
 completely. On their way home from the mill they come  
 in to Jack's and got three oak blocks which Frank  
 Arde was going to burn on the bonfire as he said.
