66 DAYS PAST WEDNESDAY 300 TO COME

Gastric Aphorisms—No. 4.

Tubercular adhesions along the diaphragm give rise to the classic symptoms of ulcer. Careful examination both in the upright and recumbent positions are necessary, together with intelligent interpretations of laboratory finding, to distinguish one from the other.

The most remarkable feature of gastro-intestinal medicine is the difference of diagnosis between that reached by quizzing the patient and that arrived at from a complete examination.—*Bell; Med. Herald.*

Weather

Thawed

Temp.

cloudy & looked like
a storm. Commenced snowing
about half past three, snowed
about two inches. The roads,
are very muddy. Old Mariah
is better the girls drove her
John took the milk. Took old
Billy & went some place this
afternoon. I ironed. Mrs. Sep
Davis wanted me to go to
aylmer with her as it was
dollar day but I couldn't. Gurb
brought me some material for
aprons & two new ke!! As Billy is Mar 6
