235 DAYS PAST

THURSDAY

131 TO COME

To End the Physiologic "Standstill."

A necessary element in the progress toward recovery from a prolonged illness is the enrichment and the restoration of the impoverished blood stream. **Pepto-Mangan (Gude)** tends to bring to an end the physiologic "stand still," by supplying to the depreciated vital fluid the ferric and manganic elements necessary to the building and rebuilding of red cells and oxygen-bearing hemoglobin.
