185 DAYS PAST

180 TO COME

Chlorotic Anemia.

An English practitioner writes: "I have formed a high opinion of **Pepto-Mangan (Gude)** in suitable cases, if persevered with for a sufficient length of time. I used it recently in a case of chlorotic anemia in a young girl. During the treatment she was thrown back by a sharp attack of influenza; but since that has passed away, she has made most satisfactory progress and looks a different creature."

Weather

Trini Mandri Kulla
I went to Aylmer got a
bag of shorts half a bushell
of potatoes. John Eugene
the man was at the north
place. Eugene came home
a sold Milly for one hundred
a fifty dollars. Then in the
evening John & Eugene went
to Aylmer & got Eugene a new
hay forke. Polly & Billy 12
